FINANCIAL AND COMMERCIAL.

MONDAY, March 5—6 P. M.
There has been a rather irregular and excited market
for stocks and gold to-day, the activity and fluctuations for stocks and gold to-day, the activity and fluctuations in which have been greater than usual of late. The general tendency of railway shares was upward, but the bears vigorously resisted it and succeeded in hammering two or three of them with temporary effect. The alternate fall and rise of gold was in some degree connected with the operations of parties "short" of stocks, who endeavored to reach the stock Exchange through the Gold Room, and thereby secure a double profit. The increased animation thus imparted to speculation may not unreasonably be regarded as the precursor of a more active state of busi-

imparted to speculation may not unreasonably be regarded as the precursor of a more active state of business in Wall street at the present season of the year and in the prevailing temper of the public mind. Even the spasmodic movements of to-day are encouraging in comparison with the stagnation which has marked the greater portion of the last two months.

At the early session of the open board the market was firm. Michigan Southern was active (sales 4,500 shares), and sold at 70; New York Central 91 (s. 3), Eric 84%, Rock Island 105%, Cleveland and Pittsburg 76%, Northwestern 26%, preferred 53%, Fort Wayne 90% a 90, Quicksilver 42, Schuylkill Coal 14%. At the first regular board Michigan Southern and New York Central were strong, but the rest of the list was dull and rather heavy. Now York Central closed 13% higher than at the haft-past two board on Saturday, Michigan Southern (sales 5,700) %. Eric and Reading were unaltered. Cleveland and Pittsburg was ¼ lower, Northwestern ¾, preferred ¼. Fort Wayne 1, Western Union Telegraph ¾, Quicksilver ¾. Government securities were steady at the closing prices of last week.

prices of last week.

After the call the market was lower, but at the one o'clock sessions there was more firmness and prices advanced. The sales of Eric at the open board were large, aggregating 6,900 shares. At the half-past two board it was firm. Eric closed ¼ higher than at the first regular board, Michigan Southern ¾. New York Contral was ¾ lower, Reading ¼, Cleveland and Pittsburg ¾, Northwestern preferred ¼, Fort Wayne ¾. Government securities were steady, excepting coupon ton-forties, curities were steady, excepting coupon ten-forties, which advanced 1/2.

At the half-past three open board the market was somewhat unsettled, but active, with large transactions in Cleveland and Pittsburg (sales 7,900 shares) and Michigan Southern (sales 5,600). The latter sold at 70% a %, Cleveland and Pittsburg 75% a %, New York Central 91% a %, Eric 84%, Reading 98 a 97%, Rock Island 104% a 105, Northwestern 25%, preferred 52, Fort Wayne 88% a %.

Afterwards the market was excited and irregular, Erie and Michigan Southern being steady and Fort Wayne and Pittsburg weak. At haif-past five o'clock Erie was quoted at 85% a ½, Michigan Southern 70% a 71, New York Central 90% a ½, Hudson River 102½ bid, Reading 97% a ½, Cleveland and Pittsburg 75% a ½, North-vestorn 5% a ½, nerferred 5% a ½. Rock Island 105% 9714 a 34, Cleveland and Pittsburg 7534 a 34, Northwestern 2534 a 34, preferred 524 a 34, Rock Islandd 16534 a 34, Rock Islandd 16534 a 34, Fort Wayne 8834 a 34. Compound interest notes were quoted by the dealers thus:—June, 1864, 10734; July, 1864, 10734; August, 1864, 10634; October, 1864, 10334; December, 1864, 10434; May, 1865, 10234; August, 1865, 10134; September, 1865, 10134; October, 1865, 101. There has been a moderately full demand for money to the first production of the compound of the compoun

from the Stock Exchange, which has been promptly met at seven per cent, with a few exceptions at six. The at seven per cent, with a few exceptions at six. The applications for discounts are slightly on the increase; but first class commercial paper passes freely at 734 a 8 per cent. The bank statement for the week shows a contracti n of loans, chiefly owing to withdrawals of temporary deposits from the Sub-Treasury and the sale of government securities, to the extent of \$4,436,788. The deposits have decreased \$1,797,026, and the legal tender notes \$2,842,681, consequent in part upon payments made for gold sold on government account at the end of the week before last. The specie has increased \$2,907,779 from the same cause. The statement is not unfavorable, and the supply of loansble funds with the banks is in excess of the current demand. funds with the banks is in excess of the current demand

The casoursements of the sub-fressury are active, the balance this evening being reduced to \$89,442,430.

The course of gold has been unusually eccentric, the price ranging from 132% at the opening to 1341% soon after noon, and ba k to 132% at forty minutes past three o'clock P. M. The cause of the weakness in the first instance was large "short" sales by the German bankers, who sold out that "long" gold at the close of last week and who their "long" gold at the close of last week, and who now wish to buy it back as low as possible. One American house also sold on Saturday morning \$300,000 of coin previously hearded, and this assisted the downward tendency; but notwithstanding the large sales which have been made coin was much scarcer for delivered to day then at any time last week and instead of interest being paid for having it carried interest at the rate of about two per cont had to be paid for the loan of it. The government has not been \$\frac{1}{2}\$ seller under 137—the lowest sale made by it having been at 137%—and will not be, its disposition being favorable to checking the speculative decline and promoting a recovery, which will doubtless soon take place. The premium has not been so low since last May, when, in the panic which attended the capture of Richmond, it declined to 25%. Previous to that time it had not touched a point equally low since September 1863, when it declined to 27. The range of the market price during the years 1862, 1863 and 1865 is thus shown:—

1862.—1863.—1863.—1863.—1864.

The Chicago Fribune of Fri	day remarks:-	

bankers report it more stringent. Mercantile balances are still low, and the domand for accommodations seems to be increasing. Rates of discount are steady at 10 per cent at the banks, and at 12 a 24 per cent on the street. Eastern exchange is in active demand, with rather a moderate supply, and the market is firm at par buying and 1-10 premium selling. Rough jots are selling among bankers at a premium of 60c. a 75c. per thousand.

The statement of the Bank of England for the week ending February 14, 1366, is as follows:—

ending February 14, 1866, is as 1010000...

Total £35,631,750 Total £35,631,750

Coleman's San Francisco Circular of the 9th of February reports:

The money market is exceedingly easy, and the surplus of loanable funds is so much in excess of the demand that some first class berrowers are obtaining accommodations at 10 per cent per annum. The current rates in bank upon good securities are 1 a 1½ per month, and at the lower figure commercial discounts are freely made, with a small amount of paper effering. During the past month—say per steamers of the 19th and 30th January—the United Etates Sub-Treasurer in this city made two shipments East of \$500,000 each via Panama. This sum of \$1,000,000 in gold is not included in our regular table of treasure reports, because of the irregularity. It was made surrepitiously, does sot appear upon the steamer's manifests, and was not cleared at the Custom House. The exports of treasures since the latt of January, 1866, have been \$3,313,63145, against \$3,504,538 12 in 1865, showing a decrease this year of \$2,651,006 64.

New York Stock Exchange. MARCH 5, 1806.
